Atkins Riddick,  
Owner/Bull Fat LLC  
(813) 205-0158  
atkinsriddick@bullfat.com

### Core Competencies

**At Bull Fat LLC, we specialize in providing tailored cybersecurity solutions to meet the unique needs of government agencies. Our team of experts understands the critical importance of securing sensitive government data and infrastructure, and we are dedicated to helping our clients stay ahead of evolving cyber threats."**

- Compliance: Adherence to strict government regulations and standards i.e. NIST, FISMA, and FedRAMP.
- Risk Assessment: Conducting comprehensive assessments to identify and prioritize security risks specific to government environments.
- Incident Response Planning: Developing customized incident response plans to mitigate and respond to cybersecurity incidents effectively.
- Secure Network Architecture: Designing and implementing secure network architectures to protect government systems and data.
- Security Training and Awareness: Providing specialized training programs to educate government employees on cybersecurity best practices.

### Past Performance

- Bull Fat LLC played a pivotal role in supporting the Department of the Army during an end-of-year Cyber surge '23.
- Meticulously reviewed over 150 IT documents, identifying gaps and opportunities for improvement. Subsequently, we updated Cyber policies and training programs to align with the latest industry best practices and government standards
- Actively participated in establishing the first-ever USACE Architecture Review Board, underscoring our expertise in IT architecture and governance.
- Instrumental in developing comprehensive compliance checklists tailored to the Department of the Army's specific IT compliance requirements.

### Differentiators

- Leveraging our specialized expertise to offer tailored cybersecurity solutions.
  - Commitment to proactive defense strategies to safeguard against cyber threats.
  - Deep understanding of regulatory requirements, security standards, and operational nuances
  - Emphasis on proactive risk management to identify and address potential threats before they manifest.
- Aligning cybersecurity measures with each agency's unique needs and constraints.
- Offering practical, cost-effective solutions that are robust and tailored to government requirements.

### COMPANY DATA

One very brief company description detailing *pertinent* data.

TargetGov Tip: Readers will visit your web site for additional information. Make sure your web site is constantly updated *and* government-focused.
