

BULL FAT LLC CAPABILITY STATEMENT

Company Data

Bull Fat LLC is a Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in tailored cybersecurity solutions for government agencies. Our experienced team safeguards sensitive data and infrastructure by anticipating threats and delivering strategic guidance. We resolve complex challenges and support operational realignment, combining cyber resilience with mission-focused efficiency.

CAGE: 9T2Z3

NAICS: 541690,541511,541512,541513,541519

UEI: NLR4T3YPEP33

SOCIO-ECONOMIC STATUS: SDVOSB, MBE

Core Competencies

- Cybersecurity Policy & Risk Management (NIST, FISMA, FedRAMP)
- Incident Response Planning & SOP Development
- Secure Network Architecture & Engineering
- Technical Writing for IT Systems
- Zero Trust Architecture Support
- Cybersecurity Roadmap Design & Compliance Audits
- Security Training & Awareness Programs
- Process Improvement (Lean Six Sigma)
- Cybersecurity Compliance Gap Analysis
- Vulnerability Assessment & Penetration Testing Coordination
- Security Authorization (ATO) Documentation Support
- IT Governance & Enterprise Architecture Support

Key Differentiators

- ✓ **Mission-Aligned:** Founded by a 22-year USAF veteran, we understand warfighter needs and agency structure.
- ✓ **Proven Federal Performance:** Active subcontractor on two USACE Cybersecurity and IT Governance Contracts (Contract Nos. W912HQ24D0003 and 47QFCA21F0001).
- ✓ **Results-Focused:** Authored SOPs, updated cybersecurity policy appendices, designed cyber strategic roadmaps, and produced security articles for USACE IT Bulletin.
- ✓ **Lean & Agile:** Small business agility with large-scale project acumen and cost-effective delivery.
- ✓ **Trusted Governance Partner:** Helped establish USACE's first Architecture Review Board.
- ✓ **Certifications:** Lean Six Sigma Green Belt-certified professionals driving measurable process improvement.

Past Performance

U.S. Army Corps of Engineers (USACE) Experience

- Subcontractor on \$4.5M Cyber Policy & Technical Writing Contract (W912HQ24D0003)
- Developed cybersecurity SOPs, policy updates, strategic roadmaps, and IT Bulletin content
- Reviewed 150+ documents to strengthen compliance, clarity, and mission readiness
- Supporting \$1.5B Cybersecurity & IT Governance Contract (47QFCA21F0001)
- Delivered 2023–2024 surge support, uncovering vulnerabilities and realigning cyber protocols
- Founding contributor to USACE's first Architecture Review Board, improving IT governance and oversight
